

TEACHER QUALITY TRUST FUND

Information

At its November 2001 meeting, the Council on Postsecondary Education recommended the creation of a new \$4 million trust fund to implement the recommendations of the Teacher Quality Task Force, the Prichard Committee for Academic Excellence, and the chief academic officers of all Kentucky public and independent colleges and universities (see Attachment C-4). If funded, the Teacher Quality Trust Fund will help Kentucky's colleges and universities create model programs for teachers, principals, and superintendents. If approved, the council will fund up to four proposals, with at least one involving an independent college or a consortium of independent colleges.
